## KNITTING WITH COLOUR

There are two main methods of working colour into a knitted fabric: intarsia and Fairisle techniques. The first method produces a single thickness of fabric and is usually used where a colour is only required in a particular area of a row and does not form a repeating pattern across the row, as in the Fairisle technique.

**Fairisle type knitting:** When two or three

colours are worked repeatedly across a row, strand the yarn **not** in use loosely behind the stitches being worked. If you are working with more than two colours, treat the "floating" yarn as if they were one yarn and always spread the stitches to their correct width to keep them elastic. It is advisable not to carry the stranded or "floating" yarns over more than three stitches at a time, but to weave them under and over the colour

you are working. The "floating" yarns are therefore caught at the back of the work.

## FINISHING INSTRUCTIONS

After working for hours knitting a garment, it seems a great pity that many garments are spoiled because such little care is taken in the pressing and finishing process.

Follow the text below for a truly professional-looking garment.

### Pressing

Block out each piece of knitting and following the instructions on the ball band press the garment pieces, omitting the ribs. Tip: Take special care to press the edges, as this will make sewing up both easier and neater. If the ball band indicates that the fabric is not to be pressed, then covering the blocked out fabric with a damp white cotton cloth and leaving it to stand will have the desired effect. Darn in all ends neatly along the selvage edge or a colour join, as appropriate. Join both shoulder seams using back stitch, or mattress stitch if preferred.

### Stitching

When stitching the pieces together, remember to match areas of colour and texture very carefully where they meet. Use a seam stitch such as back stitch or mattress stitch for all main knitting seams and join all ribs and neckband with mattress stitch, unless otherwise stated.

### Construction

Having completed the pattern instructions, join left shoulder and neckband seams as detailed above. Sew the top of the sleeve to the body of the garment using the method detailed in the pattern, referring to the appropriate guide:

**Straight cast-off sleeves:** Place centre of cast-off edge of sleeve to shoulder seam. Sew top of sleeve to body, using markers as guidelines where applicable.

**Square set-in sleeves:** Place centre of cast-off edge of sleeve to shoulder seam. Set sleeve head into armhole, the straight sides at top of sleeve to form a neat right-angle to cast-off sts at armhole on back and front.

**Shallow set-in sleeves:** Place centre of cast-off edge of sleeve to shoulder seam. Match decreases at top of sleeve. Sew sleeve head into armhole, easing in shapings.

**Set-in sleeves:** Place centre of cast-off edge of sleeve to shoulder seam. Set in sleeve, easing sleeve head into armhole.

Join side and sleeve seams.

Slip stitch pocket edgings and linings into place.

Sew on buttons to correspond with buttonholes.

Ribbed welts and neckbands and any areas of garter stitch should not be pressed. ●
